SUGGESTED SPECIFICATIONS: _____ projection screen(s), _____ (H) x _____ (W) size, portable tripod type. Legs shall be gable constructed of 18 gauge steel, equipped with plastic shoes and attached to upright by one-piece hooded steel leg bracket. Automatic leg lock shall fasten all three legs and be released by a push-button near top of upright tube. Upright tube and extension tube shall be plated square welded seam steel. To have an adjustable steel case finished in black powder coat and fitted with end caps concealing roller ends with integral nylon bearing surface to support the roller. Positive stops in all positions of extension tube shall be provided by plunger lock. Top edge of fabric is mounted securely into a powder coated tubular steel slat. Ends of slat shall be protected by plastic outer caps. A steel pull shall be attached to the slat. Picture surface shall have black masking borders standard on flame retardant and mildew resistant seamless fiberglass fabric. Fabric shall be mounted into a metal strip in a metal Camlok® roller system without tape, glue, staples or cords so that fabric may be easily replaced yet cannot be pulled from roller. A simple, reliable tensioning device shall be provided.

Matte White and Silver Lite 2.5: Surfaces will be seamless.
